

SENATOR WARNER: That is correct.

SENATOR HALL: Okay. Thanks, Senator Warner. Mr. President and members, the reason I bring this up is not because I planned to pursue it, because I think it is difficult to understand, and I'm not all that sure I understand it. But I do know that when you have the state monies you also are required to have a county match. And I think that the new formula, as Senator Warner called it, does affect the counties. And I think some counties are going to be looking at increasing their support percentage, and others are not. And I don't know, to be honest with you, I don't know, and I don't think anybody will until after this is in place, what effect, if any, either good or bad. And I think that when you increase the General Fund support for some and decrease it for others there is going to be an impact on that county match. It may not be significant, but there is going to be an impact there. I think that this is something that we won't see right off the bat. But I do think that we will hear from those counties that are affected. Maybe I am wrong, but I raised the question because there was little or no debate on this specific amendment when it was offered. I don't think that the impact of the redistribution has been discussed. And I'm not sure that the body is of a mood to discuss it at this time. But I just raise that flag and say we may feel an impact down the road. With that, Mr. President, I would withdraw the amendment.

SPEAKER BARRETT: It is withdrawn. Mr. Clerk.

CLERK: Mr. President, the next motion I have was from Senator Schmit to strike the enacting clause. Senator, I understand you want to postpone that, defer that for a little bit? Okay. Mr. President, the next motion I have is from Senator Abboud. Senator, the amendment I have in front of me relates to the Foster Care Review Board.

SENATOR ABOUD: Mr. President, colleagues,...

SPEAKER BARRETT: Senator Abboud.

SENATOR ABOUD: ...this is a small amendment. Was that....

SPEAKER BARRETT: Senator Abboud.

SENATOR ABOUD: This is a very small amendment, Senator Higgins. This is a reduction of \$15,000, maybe that is the way
